Technology Enthusiast and Programming Background

I grew up immersed in the age of technology, developing a passion for it from an early age. As I matured, the choice of a career in IT and the decision to enter the world of programming were natural. I have experience in **C++**, **Python** and web development (**HTML**, **CSS** and **JavaScript**) and am a dedicated Linux OS enthusiast. I'm currently studying and developing projects with **React**.

Skills

HTML, CSS, JavaScript, React, Git and GitHub.

Education

Universidade Estácio de Sá

Computer Science – *Completion scheduled for January 2027*
